

June 14, 2013

School's Name: Dr. Ersy Sagot Mejia

School's Principal: Wendy Ivetth Euceda Umanzor

Community Name: Jicaro Abajo, Moropocay

Student's name: Nancy Oneyda Martinez Vasquez

Our school is part of the Lunches for Learning program, which has been a great benefit to our children in the community. Lunches for Learning has also helped them in their personal development (health and physical development). Such is the case of Nancy Oneyda. Her parents, Exaltacion Martinez and Marcia Oneyda Vasquez, did not have the financial ability to keep her in school or properly fed her (editor's note: Nancy was clinically malnourished; she could not maintain concentration and often missed school due to poor health).

Nancy Oneyda was among the first class of children to be in the Lunches for Learning program, which was of great benefit and support for her from 1st grade until she finished 6th grade. Nancy is now working as a teachers aid in the preschool daycare center. She prepares children with basic education before they start first grade. She was given this responsibility because of her academic achievement and she has earned her 6th grade diploma. Nancy is now 14 years old and earns enough to support herself and help her family.

Escuela Dr. Ery Sagot Mejia

Nuestro Centro Educativo cuenta con el programa Merienda para aprender, la cual a benido a beneficiar de gran manera a los niños de nuestra comunidad estudiantil desde que contamos con Merienda para Aprender se an dado casos de niños que gracias a esto an logrado continuar su desarrollo interpersonal.

Como es el caso de Nancy Oneyda Martinez Vasque hija de Exaltación Martinez y Marcia Oneyda Vasquez quienes por no contar con recursos economicos an podido darle la oportunidad de contiuar estudiando.

Nancy Oneyda Martinez Vasquez Fue una de las primeras beneficiadas con el programa el cual fue de mucha ayuda para ella ya que gracias al programa pudo continuar en el primer grado hasta el sexto grado y hoy se encuentra trabajando como Facilitador del CEPREB que es una institución donde prepara a niños de 5 años que cursan Kinder para que ingresen con conocimientos previos a primer grado, ella pudo adquirir este trabajo gracias a que termino su sexto grado.
