Student's Name: Lesther Josue Rodriguez

This student comes from a family with financial limitations; they were so poor they could not even give the child a decent meal once a day. They simply did not have enough food at their house. Before the Lunches 4 Learning program, he went to school without breakfast and he often skipped school because he had to go and help his dad find something to eat. Once he was eating a complete meal every day, thanks to the Lunches for Learning program, Lesther learned how to read and write very well because he could attend school every day. He improved his attendance. He is a very smart child and now that he finished 6th grade, he works in the agricultural business and has a better life thanks to his diploma. Thanks to the Lunches for Learning program, he can now help to feed his family while feeding himself.

El programa de Merienda para aprender inició en el año 2005

Este alumno procede de familia de escasos recursos económicos, el programa hubo gran impacto en gran medida a que el niño aprendiera a leer y escribir, ya que se iban sin desayunar, y no tenían suficiente alimentos en sus casa, faltaba mucho a la escuela por que se iba a trabajar con su papá para obtener alimento.

Con la llegada de la merienda para aprender mejoró su asistencia y muy inteligente, ahora es egresado de sexto grado, lo cual se dedica a trabajar en la agricultura y tiene una vida mejor en la alimentación.

Gracias al beneficio de la merienda aprender este niño a superado mucho para beneficio propio
