

After two years of uncertainty, *Lunches for Learning* was able to return to normal operations in 2022, resuming the life-changing school lunch program. The overwhelming response we received has been, "Thank you for remembering us!". We are committed to breaking the cycle of poverty in rural southern Honduras. If you are planning any year-end giving this year, please consider a gift to L4L to help us continue transforming the lives of these deserving children.

More Determined Than Ever

The fact that L4L was able to resume normal operations in 2022 has been great news ... and we've been able to do that because the kids are back in school every day, which is even better news! Teachers have worked diligently this year to get the kids caught up after having missed two full years of in-person instruction during Covid shutdowns. And L4L has been with them every step of the way.

One of our objectives for this year has been to hopefully begin reaching new communities, but rising food costs have challenged our ability to grow. As we look toward 2023, our desire to reach more children is as strong as ever. Will you help us?

The Impact of Your Generosity:

- A gift of \$150 provides school lunches to one child for an entire school year.
- \$750 feeds a single grade-level grouping of children (ex: 3rd graders, averaging 5-6 students).
- \$1,500 covers the cost of lunches for an entire classroom (multiple grade-level groups).
- \$2,500 will sponsor a kindergarten or a small K-6 school for a full year.
- \$5,000 will sponsor a medium sized K-6 school for a full year.
- \$10,000 will sponsor a large K-6 school for a full year.
- \$20,000 will sponsor a large K-9 school for a full year.

Lunches for Learning is an IRS-approved 501(c)(3) non-profit organization.

All gifts are tax-deductible.

Checks can be mailed to PO Box 2146, Roswell, GA 30077 | empower@lunchesforlearning.org

You Are Their Safety Net!

In the United States, more than 30 million children receive free or reduced-price lunches at school every day. In Honduras, that number is zero. For the families in rural southern Honduras, L4L is the only safety net they have.

Our mission remains crystal clear - provide lunch in school to the poorest kids in Honduras so that they can remain in school, graduate, and become young adults who are employable in the Honduran economy. That is how we - with your help - will break the cycle of poverty for the children in this region of Honduras.

Seydi

Seydi is in 5th grade and lives with her parents, her younger brother, who is in 3rd grade, and her younger sister, a 1st grader. As the oldest, Seydi is responsible for walking her brother and sister to school and back home every day - a one-hour walk each way. She dreams of becoming a teacher one day. "Thank you for the lunch at my school each day. God bless you!"

Miguel

Miguel is in 3rd grade and lives with his mother and his younger sister. Miguel's father died in a farming accident when he and his sister were very young. There is one of the newer schools in the L4L program, having begun receiving lunches in February 2020 - just before schools were closed due to Covid. Miguel is grateful to be back in school now and receiving lunch each day again. His favorite part of lunch is the cup of milk.

Before **Lunches for Learning** arrived in their communities, Seydi and Miguel struggled to find enough food to survive each day. Attending school took a back seat to their empty stomachs.

Now, both students, their siblings, and their classmates can all dream of a brighter future ...

for themselves, and for their families. The Lunches for Learning program has given them a new sense of hope.

Will you consider a year-end gift to help us reach more deserving kids like Seydi and Miguel?
